

Cromwell High School/ Curzon Ashton Community Foundation Partnership

First of all, I would like to thank 'Curzon Ashton Community Foundation' for their willingness & co-operation in becoming our community partner and how excited we are as a school to create many memorable moments for our pupils in the near future.

The aim of this partnership is to build relationships with the staff of 'Curzon Ashton community foundation' in a school setting and then encourage our pupils to attend activities outside of curriculum time for e.g. after school events/session or attending football sessions at Curzon Ashton FC. This process will hopefully make our pupils become more comfortable when seeing a familiar face in a community setting, and parents/carer's can use Curzon as a well-known trusted hub for pupils to enhance their extra-curricular activity away from school.

We will be aiming to deliver events/sessions such as stadium tours, afterschool sports sessions, meet and greet players of Curzon Ashton FC and attending Curzon Ashton men's 1st team matches who play in the 'national league north' on Saturday afternoons with their free season ticket - dates and times of kick off TBC.

All parties have agreed that pupils of Cromwell High School are at the heart of all future activities, and that as a partnership, we will do our utmost to make as many of the future projects/sessions accessible for our pupils and just as importantly, enjoyable.

Mike (Curzon Ashton Foundation Manager)

'We are thrilled to be working with Luke, Simon and the pupils at Cromwell High School, we hope that by creating a Community Partnership, we can offer a wide range of opportunities and activities for the pupils to engage with and look forward to welcoming them to The Tameside Stadium to cheer on The Nash.'

Luke Davenport - PE department
